March 15, 2007

Per my conversation with Daron this afternoon I am writing to request a thirty day extension to address the issues in his letter to me written on February 22, 2007. I would appreciate it if you could extend the deadline to April 15, 2007.

I am requesting the necessary information to get a reclamation contract in place and the language necessary for the bank (holding our BLM bond) to make the Division of Gas, Oil and Mining co-beneficiary.

Daron inquired as to a Notice of Intent. I do not know if we have a Notice of Intent in place. I am quite sure that we do have a Plan of Operations on file with the BLM. I do believe that plan is on file with your office. Daron said that he would speak with Tom Monsen about this. Tom has been my contact person for several years.

I received the February 22, 2007 letter on March 10 because it was sent to Jim Kelsey's post office box. This is the first correspondence he has shared with me in two years. It is imperative that I receive your correspondence, therefore I would like the address changed to Jean Smith, P. O. Box 249, Delta, Utah 84624. My telephone number is 435-979-7754. My e-mail address is scarlet@delwave.com

Thank you for your consideration today. I am looking forward to working with you to resolve these issues.

Thank you,
Jean Smith
